<p>October 2009 – Changes to the Immigration Control Act</p> <p>The Immigration Bureau announced the visa application forms have been revised and they will accept old applications until the end of 2009. The revised forms are separated into two forms:</p> <ol style="list-style-type: none"> 1. For Applicant 2. For Organization <p>The forms must be signed and stamp of place of employment, organization or representative. The new forms are available on the Japanese Immigration Bureau and on http://www.immi-moj.go.jp/english/tetuduki/kanri/hituyou_syorui.html</p>			
<p>Consolidated Shipments</p>		<p>Effective May 01, 2007, Japanese Customs has indicated a change in handling Consolidated shipments for multiple shippers.</p> <p>Prior handling requirements allowed the inbound container to be taken from arrival direct to Customs for clearance processing. The new requirements call for the freight to be de-vanned at a separate location, normal declarations filed, and the clearance procedure will then be processed. This will add handling of the individual shipments, and possibly increase costs associated with consolidations. It may also increase the normal time to accomplish clearance and release of consolidations.</p>	<p>Contact your FIDI partner in Japan for specific details and charges for consolidated shipments.</p>

<p>Fumigation of imported and exported wooden crates</p>		<p>The Japanese Government adopted ISPM-15 (International standards for Phytosanitary Measures Publication 15) Guidelines for Regulating Wood Packaging Material in International Trade (aka NIFM-15) to standardise the treatment of wood packing materials used for the transport of goods.</p> <p>With a view to harmonizing our regulation with the international standards, definition of good packaging material and measures for it in the regulation is equivalent to that provided in ISPM No.15. Wood packaging material treated and certified according to ISPM No.15 will not be subject to import quarantine procedures. Wood packaging material without the mark (Annex II, ISPM No.15) will be inspected at ports of entry by plant quarantine officers for confirmation of compliance with the regulation. Detection of a quarantine pest constitutes non-compliance, and which is, according to Japanese domestic law, it is subject to disinfestation, incineration or re-shipment by consignee's choice according to the Japanese domestic law.</p>	<p>Based on the result of a pest risk analysis for wood packaging material, Japan amended its Import Plant Quarantine Regulation (MAF Notification No.206, 1950). This amendment to it was published on 6 October 2006 and will be put into force on 1 April 2007. As of this date</p> <p>An outline of this regulation can be found online at http://www.pps.go.jp/english/woodpack/index.html</p>
